Safe Routes to School

The *Safe Routes to School Safe Travel Program* helps create safer walking and bicycling routes near schools so parents/guardians feel comfortable allowing their children to walk and bike to school. This allows children to lead more active and healthier lifestyles and also helps reduce traffic volume and congestion near schools.

This initiative is being led by consultants from TranSystems and Murphy/Epson and the Ohio Department of Transportation (ODOT), and a diverse team of representatives from our schools, the city, public safety and health as well as parents, and concerned community members.

Data collection is currently in progress, and a Public Kick-Off will be scheduled in early 2017 to present the resulting Safe Travel Plan for public input. For more information, contact Mimi Anderson at 513-931-8840 x127 or manderson@mthealthy.org.
